SATURDAY MORNING, JANUARY 5, 1867.

COMMERCE OF THE PORT.

Notwithstanding the dullness that pervaded our market during nearly the whole of the first month of the quarter ending December 31, 1866 (occasioned chiefly by the sickness prevailing at that time), yet the imports and exports of this quarter compared very favorably with those of the corresponding three months of the year 1865, and exhibit such a marked improvement as to indicate the revival of our former commercial prosperity.

On a caroful examination of the figures of the last three months, as shown in our tabular statements of this morning, we find that in the foreign and coastwise exports of cotton, the increase of the fourth quarter of 1866 over the same period of the year 1865, is nearly 20,000 bales, while a comparison of the total value of Bishop Porren has been made the recipient of exports for the same time shows an excess in favor of the fourth quarter of 1866 of over \$2,600,000.

This is certainly a source of congratulation, as it indicates that, if under the most adverse circumstances, the trade of our port exhibits such an improved condition, what we may not anticipate when capital sufficient shall be centred here to give additional impetus to all branches of commerce and manufactures.

The following figures show the business transactions of the last three months:

THE NEW STATE TAX.

A communication in another column, directs attention to the recent enactment by the General Assemby of South Carolina, of a Tax Law for 1866 and 1867. The merchants and business men of every grade will doubtless move at once in this matter, both in their individual and corporate capacities. We do not know by whom this Tax Bill was drawn, but it is clear that it was hastily prepared, and is as far from Washington. They are said to be frightened at an equitable apportionment of the burden as a Tax Bill well can be. We know nothing of its history, but from the internal evidence, should say that it was tinkered up in the committee room to the last possible moment, and then rapidly smuggled through the several readings into the dignity of an "Act." How strange that the most important of all laws should always be thus ushered into being. The Legislature spends hours, days and weeks, liscussing unimportant questions, the Tax and Approcount, sixteen thousand persons visited the Museintents and purposes, never passes on them at between Sam Collyes, of Baltimore, and John all. The Clerk reads them in a formal, monotonous manner, no one listening; and when Grace, Maryland, on the 15th inst. Betting on the the Legislature adjourns no member outside the committee knows what the Tax Law is; and we never can have a well digested Tax Bill until the time for the meeting of our General As-"Mr. MacLinser, formerly a member of the North sembly is changed. What are Tax and Approvisions of Christmas turkey and smoking plum

The Act just passed is open to objections on various grounds. In the first place, insofar as it relates to a tax for the year 1866, it is clearly an ex-post-facto law and cannot be exccuted. Commission merchants, auctioneers and others are taxed from two to ten per cent. on their sales for 1866, the proceeds of which, in many cases, have long since been returned and the accounts closed. There are houses here, for instance, selling whiskey for parties in Cincinnati, Baltimore, etc., on which they charged, say from two-and-half to five per cent. commission. They have made return sales for the past year and paid in the money. The two-and-a-half to five per cent. commission is now all they have to show for the transaction. And yet the State now asks these commission merchants to pay \$10 on every \$100, or from one to three hundred per cent. more than the total amount of their commissions. This is

robbery, not taxation! The tax on real estate is thirty cents on every dollar, and this is the only low tax in the whole schedule. The system is iniquitous, and especially detrimental to all the interests of our city. Whether or not all the appropriations made by the Legislature were necessary, is not to the present purpose. We might have grumbled at heavy taxation, no matter how equitably the burden had been apand to the prejudice of the commercial interest, is so palpable and so oppressive that it naturally rouses all the opposition we are capable of. This discrimination, together with the exber of Commerce and the Board of Trade should lead the way in the matter; other corporations will follow. Our correspondent suggests a general mass meeting of citizens at an

early date. Perhaps that would be best. That our citizens should be sensitive to an additional onerous tax now, when they already another to the city, is hardly to be wondered at. We regret that our delegation in the Legislature did not find time to examine the Act member from Charleston in the Speaker's chair. It seems they had first to be incitizens, who read the Act with great attention upon its first publication in Charleston. As no redress can be expected, therefore, from our legislators, will not our leading merchants take the matter in hand, and rouse the public mind suit the narrow prejudices of certain up-country representatives to make Charleston pay for the entire government of the State. To tell them that such a policy is short-sighted is of no avail. We must see to it ourselves, that no such unjust burden is laid upon our shoulders. In old times, "when all the world went out to be taxed " it was understood that the !ribute required was equitable, and duly apportioned to the means of the several individuals who were to pay it. There is no reason why it

December 10 2mo No. 193 Front street, New York. SOLUBLE PACIFIC GUANO.

THE COMPOSITION OF THIS GUANO'S IDEN-TICAL WITH PERUVIAN. IT DIFFERS ONLY IN THE PROPORTIONS OF THE BAME ELEMENTS.

HILE IT CONTAINS LESS AMMONIA, IT HAS nearly twice the quantity of Phosphate of Idma, 15 per cent. of which is immediately schuble. Its effects on Cotton the past season have, in many instances, excelled Peruvian Guano. It has in no case proved less soitive in the early growth of the crop. When drought intervenes the crop does not suffer from its use as is the case with Peruvian Guano. By reason of the presame in it of so large a per cent. of Phosphate of Lime its use improves the soil to an extent that cannot be realized from Peruvian Guano.

Every cargo of this Guano is subjected to rigid impection analysis, and is sold on a basis of actual value.
